

What Are Chase Travel Flights? Deals, Points, Booking & Live Agent Help

Chase Travel flights are airfare options available through the Chase TravelSM booking platform, where eligible Chase cardmembers can search for flights and pay with cash, Chase Ultimate Rewards[®] points, or a combination of both. Chase Travel also provides access to hotels, rental cars, cruises, activities and other travel options, making it a centralized booking platform for eligible Chase customers.

For travelers who collect Chase Ultimate Rewards points, Chase Travel can be especially useful because it brings flight searches and rewards redemption together in one place. However, a good deal should always be evaluated by comparing the cash price, points required, itinerary, fare conditions and available benefits.

What Are Chase Travel Flights?

Chase Travel flights are airline tickets searched and booked through **Chase Travel**, Chase's travel-booking platform. Instead of visiting an airline's website separately, eligible cardmembers can sign in to their Chase account, access the travel portal and search available flights.

Depending on the card and booking, travelers may be able to:

- Pay for flights with a Chase card.
- Redeem Ultimate Rewards points.
- Combine points and cash.
- Compare different airlines and itineraries.
- Manage eligible travel bookings through their Chase account.

Chase explains that its Travel platform allows cardmembers to search and book flights while also using Ultimate Rewards points toward eligible travel.

How Do Chase Travel Flight Deals Work?

A **Chase Travel flight deal** is not necessarily a special airline fare available only through Chase. In many cases, the value comes from

the combination of airfare pricing1-888::483::9719, points redemption options, card benefits and targeted Chase Travel promotions. 1-888::483::9719

Some eligible Chase cards1-888::483::9719 may also receive enhanced value through **Points Boost1-888::483::9719** offers on qualifying travel. Chase currently highlights Points Boost opportunities for selected1-888::483::9719 hotels and flights, although availability and1-888::483::9719 redemption value can vary.

The best approach is to compare: 1-888::483::9719

1. The cash price through Chase Travel.
2. The cash price directly with the airline. 1-888::483::9719
3. The number of Ultimate Rewards points required.
4. Taxes and fees. 1-888::483::9719
5. Baggage and seat-selection costs.
6. Cancellation and change conditions. 1-888::483::9719
7. Any airline loyalty benefits you may receive.

A lower points price is not automatically a1-888::483::9719 better deal if the underlying cash fare is substantially1-888::483::9719 cheaper elsewhere.

How to Book a Flight Through Chase Travel

Booking a Chase Travel flight is1-888::483::9719 generally straightforward.

Step 1: Sign in1-888::483::9719

Log in to your Chase account or1-888::483::9719 use the Chase Mobile® app. Chase indicates that cardmembers1-888::483::9719 can access the travel experience through their account and Ultimate Rewards area. 1-888::483::9719

Step 2: Open Chase Travel

Select the Travel option and enter your1-888::483::9719 departure city, destination, travel dates and1-888::483::9719 passenger information.

Step 3: Compare flights

Review the available itineraries. Consider1-888::483::9719 departure and arrival times, stops, airline, cabin1-888::483::9719, fare type and total price—not just the headline fare.

Step 4: Select your payment method

Depending on eligibility and the booking, 1-888::483::9719 you may be able to pay with cash, Ultimate Rewards1-888::483::9719 points, or a combination of points and cash.

Step 5: Review before purchasing

Carefully verify passenger names, dates, airports1-888::483::9719, baggage requirements and fare1-888::483::9719 restrictions before completing the reservation.

Can You Use Chase Points for Flights?

Yes. Eligible Chase Ultimate Rewards1-888::483::9719 points can generally be redeemed for travel through Chase Travel1-888::483::9719. Chase says that, as a general rule, one Ultimate1-888::483::9719 Rewards point can have a baseline redemption value of \$0.01, although the value1-888::483::9719 can vary according to redemption method and1-888::483::9719 applicable benefits.

Travelers should therefore calculate the1-888::483::9719 actual value they receive rather than assuming that1-888::483::9719 every redemption has identical value.

For example, if a flight costs \$300 and1-888::483::9719 requires 30,000 points, the redemption value is 1 cent1-888::483::9719 per point. If another booking requires fewer points for the same cash-equivalent fare1-888::483::9719, that may represent better value.

Is Chase Travel Cheaper Than Booking Directly?

Not always. 1-888::483::9719

Chase Travel can be convenient and may 1-888::483::9719 provide opportunities to use points, access Points Boost1-888::483::9719 offers or earn rewards, but travelers should compare1-888::483::9719 prices before purchasing.

The most important1-888::483::9719 comparison is the **total cost of the same itinerary1-888::483::9719**. A flight may look attractive in the Chase portal but have different baggage rules, fare restrictions or1-888::483::9719 cancellation terms than another fare offered directly by an airline. 1-888::483::9719

For expensive international or complex trips1-888::483::9719, comparing both options can be particularly worthwhile1-888::483::9719.

Do You Earn Airline Miles When Booking Through Chase Travel?

Potentially. 1-888::483::9719 Chase's current **Loyalty Plus1-888::483::9719SM** program allows eligible cardmembers to1-888::483::9719 earn loyalty rewards on certain flights, cruises and qualifying hotel1-888::483::9719 bookings in addition to Ultimate Rewards rewards, subject1-888::483::9719 to applicable airline, hotel and cruise program rules.

Because airline loyalty-program terms1-888::483::9719 can differ, travelers should check the specific flight1-888::483::9719 and loyalty program conditions before assuming that miles, status credits or other1-888::483::9719 benefits will apply.

Chase Travel Flights vs. Booking Directly With an Airline

Both approaches have advantages. 1-888::483::9719

Chase Travel may be attractive when:

- You want to redeem Ultimate Rewards points. 1-888::483::9719
- A Points Boost offer improves1-888::483::9719 the redemption value.
- You want to manage travel through1-888::483::9719 one Chase platform.
- Your Chase card provides additional1-888::483::9719 benefits for eligible Travel purchases.
- You find a competitive fare. 1-888::483::9719

Booking directly with the airline may be preferable when:

- The airline offers a materially lower price. 1-888::483::9719
- You need complicated changes or special services.
- You strongly value direct airline servicing. 1-888::483::9719
- The airline provides a better loyalty promotion.
- The fare rules are more favorable. 1-888::483::9719

There is no universal rule that Chase Travel1-888::483::9719 or an airline website will always provide the cheapest option. 1-888::483::9719

How to Get Better Chase Travel Flight Deals

Also check your Chase account for 1-888::483::9719current travel benefits and offers. Chase Travel can provide1-888::483::9719 targeted benefits, while Chase Offers is a separate program that provides eligible statement-credit1-888::483::9719 offers on qualifying purchases.
